Introducing the New IMPACTO® Vibration Reducing BLACKMAXX Glove

Impacto Protective Products Inc. specializes in design, manufacturing and distribution of custom ergonomic products to help prevent cumulative trauma and repetitive strain injuries.

One of their latest innovative products added to their ergonomic Hand & Wrist Protection Line is the **BLACKMAXX vibration dampening glove.**

These economical cotton/poly knitted vibration dampening gloves are coated with "pods" of lightweight cellular polyurethane. The combination makes for extremely comfortable vibration reducing gloves that use encapsulated air to cushion and dampen vibration, giving the user good dexterity, a lightweight feel, and reduced bunching. The vibration reducing gloves absorb and dissipate some of the vibration emitted from pneumatic and impact tools, helping to reduce fatigue to hands, arms and shoulders. www.impacto.ca (888) 232-0031.
