

# IMPACTO® METGUARD™

The **IMPACTO® METGUARD™** METATARSAL PROTECTOR is a safety footwear attachment which protects the metatarsal area of the foot. It has been designed and tested to compliment steel cap footwear. The lip of the **METGUARD™** sits on top of the steel cap at load point and is secured with existing laces or optional straps. It helps protect the workers' upper foot by deflecting and dispersing the impact of falling loads. The **METGUARD™** fits all safety shoes and boots, it is a perfect economical solution to metatarsal protection.

- **Made of extremely durable, lightweight and non-conductive polycarbonate**
- **Used with existing footwear and transferable between users and footwear**
- **Attaches with existing laces or optional straps for non-lace up footwear**
- **The METGUARD is practical, comfortable, easy fit and simple to use**
- **Tested to conform with stringent Safety Footwear Standards:**

USA & Canada Safety Standards – F2413-05 ASTM, F2412-05 ASTM, ANSI Z41

European Safety Standards – ISO 20345: 2004, ISO 20344: 2004

Australian and New Zealand Safety Standards – AS/NZS 2210.7: 2001
