

IMPACTO® ANTI-IMPACT GLOVE

Utilizing Visco-Elastic Polymer (VEP) Padding
Protects the palm and fingers from Impact and Shock
Wrist Support protects from Repetitive Strain Injuries (RSI)

Model **473-31**

- › The back is made with nylon fabric to ensure optimum breathability and comfort
- › Palm made of soft pearl leather for dexterity and abrasion protection
- › VEP 3/16" waffle padding in the palm, fingers and wrist support to protect from impact
- › Full finger style offers best protection
- › Attached leather wrist support prevents over extension and over flexion to prevent RSI
- › Excellent protection from electric and pneumatic tools in industrial applications such as construction and manufacturing
- › Variations:
413-30 - without wrist support
473-30 - with elastic wrist support

IMPACTO anti-impact gloves utilize Visco-Elastic Polymer (VEP) padding. VEP has excellent impact absorbing and shock dissipation qualities as well as absorption of higher levels of vibration. VEP is made from polyurethane with additional chemicals that increase its viscosity level. It is effective in redistributing and reducing local pressure on the area padded. VEP will not "compression set", making it extremely durable to stand to rigorous repetitive tasks. IMPACTO offers a large line of VEP padded gloves to suit customized needs.

EN 388:2003
Protective gloves against mechanical risks
EN 420:2003+A1:2009
General requirements for gloves

Sizing: Measure the circumference of the hand at the base of fingers.

Washing: Hand wash in cold water and soft detergent. Do not bleach, do not dry by machine, do not dry clean.

Glove	Hand	Circumference
X-Small	6	6" - 7" / 15-18 cm
Small	7	7" - 8" / 18-20 cm
Medium	8	8" - 9" / 20-23 cm
Large	9	9" - 10" / 23-28 cm
X-Large	10	10" - 11" / 28-33 cm
XX-Large	11	11" + / 33 + cm
