

IMPACTO® ANTI-IMPACT GLOVE

Utilizing Visco-Elastic Polymer (VEP) Padding
Protects the palm, side & back from Impact and Shock

- › The back is made with nylon fabric to ensure optimum breathability and comfort
- › Palm made of soft pearl leather for dexterity and abrasion protection
- › VEP 1/8" padding in the palm extending over the ulnar side to the back of the hand
- › Half finger style leaves fingers open for tactile feedback and mobility
- › Hook and loop wrist closure
- › "Bundler's Glove" designed for tying cord around cables, wires, hoses, etc. wrapping ties around electrical harness in aircraft and automotive assembly; and bending copper tubing in the manufacture of air conditioners

Model 404-30

IMPACTO anti-impact gloves utilize Visco-Elastic Polymer (VEP) padding. VEP has excellent impact absorbing and shock dissipation qualities as well as absorption of higher levels of vibration. VEP is made from polyurethane with additional chemicals that increase its viscosity level. It is effective in redistributing and reducing local pressure on the area padded. VEP will not "compression set", making it extremely durable to stand to rigorous repetitive tasks. IMPACTO offers a large line of VEP padded gloves to suit customized needs.

In Conformance with Norms:

EN 388:2003

Protective gloves against mechanical risks

EN 420:2003+A1:2009

General requirements for gloves

Sizing: Measure the circumference of the hand at the base of fingers.

Washing: Hand wash in cold water and soft detergent. Do not bleach, do not dry by machine, do not dry clean.

Glove	Hand	Circumference
Small	7	7" - 8" / 18-20 cm
Medium	8	8" - 9" / 20-23 cm
Large	9	9" - 10" / 23-28 cm
X-Large	10	10" - 11" / 28-33 cm
