

IMPACTO® ANTI-IMPACT GLOVE

Utilizing Visco-Elastic Polymer (VEP) Padding Protects the palm, trigger finger and thumb from Impact

Model **409-30**

- › Soft pearl leather palm and back offers dexterity and abrasion protection
- › The back has nylon to ensure breathability
- › VEP 1/8" padding in the palm, thumb and index finger to protect from impact and shock
- › Half finger with extended index finger ensures tactile feedback and mobility
- › Pull tabs at the fingertips for easy removal
- › Elastic wrist with hook and loop closure
- › Great for protection from electric, air and power tools in applications including construction, manufacturing and maintenance
- › Variations:
479-31 - with leather wrist support

IMPACTO anti-impact gloves utilize Visco-Elastic Polymer (VEP) padding. VEP has excellent impact absorbing and shock dissipation qualities as well as absorption of higher levels of vibration. VEP is made from polyurethane with additional chemicals that increase its viscosity level. It is effective in redistributing and reducing local pressure on the area padded. VEP will not "compression set", making it extremely durable to stand to rigorous repetitive tasks. IMPACTO offers a large line of VEP padded gloves to suit customized needs.

In Conformance with Norms:

EN 388:2003

Protective gloves against mechanical risks

EN 420:2003+A1:2009

General requirements for gloves
