

IMPACTO® ANTI-IMPACT GLOVE

Utilizing Visco-Elastic Polymer (VEP) Padding Protects the palm from Impact and Shock

Model **460-30**

- › All pearl leather glove with soft lining protects from abrasion
- › VEP 3/16" waffle padding in the entire palm and base of the fingers protects from impact and shock
- › Half finger style leaves fingers open dexterity and mobility
- › Adjustable hook and loop wrist closure
- › Great for protection from manual and power tools in applications including driving, construction, assembly and manufacturing
- › Variations:
450-30 - without thumb

IMPACTO anti-impact gloves utilize Visco-Elastic Polymer (VEP) padding. VEP has excellent impact absorbing and shock dissipation qualities as well as absorption of higher levels of vibration. VEP is made from polyurethane with additional chemicals that increase its viscosity level. It is effective in redistributing and reducing local pressure on the area padded. VEP will not "compression set", making it extremely durable to stand to rigorous repetitive tasks. IMPACTO offers a large line of VEP padded gloves to suit customized needs.

In Conformance with Norms:

EN 388:2003

Protective gloves against mechanical risks

EN 420:2003+A1:2009

General requirements for gloves

Sizing: Measure the circumference of the hand at the base of fingers.
