

IMPACTO® ANTI-IMPACT GLOVE

Utilizing Visco-Elastic Polymer (VEP) Padding
Protects the palm, fingers and thumb web from Impact and Shock
Wrist Support protects from Repetitive Strain Injuries (RSI)

- › The back is made with nylon fabric to ensure optimum breathability and comfort
- › Soft pearl leather cover for dexterity and abrasion protection
- › VEP 1/8" padding in the palm, fingers and thumb web protects from impact and shock
- › 3/4 finger style leaves finger tips open for tactile feedback and mobility
- › Leather wrist support prevents over extension and over flexion to protect from RSI
- › Great for protection from electric, manual and power tools in applications such as construction, manufacturing and automotive
- › Variations:
485-31 - with elastic wrist support

Model 485-30

IMPACTO anti-impact gloves utilize Visco-Elastic Polymer (VEP) padding. VEP has excellent impact absorbing and shock dissipation qualities as well as absorption of higher levels of vibration. VEP is made from polyurethane with additional chemicals that increase its viscosity level. It is effective in redistributing and reducing local pressure on the area padded. VEP will not "compression set", making it extremely durable to stand to rigorous repetitive tasks. IMPACTO offers a large line of VEP padded gloves to suit customized needs.
