

# IMPACTO® ANTI-IMPACT GLOVE

## Utilizing Visco-Elastic Polymer (VEP) Padding

### Protects the palm, fingers and thumb from Impact and Shock

- › Grain leather front and back offers abrasion protection and durability
- › Contoured VEP 1/8" padding in the palm, fingers and thumb provide excellent protection from impact and shock
- › 3/4 finger style leaves finger tips open to ensure tactile feedback and mobility
- › Gussetted fingers ensure comfort
- › Outstanding protection from hand, electric and power tools in applications including construction, assembly, manufacturing, maintenance and warehousing

Model **506-20**

IMPACTO anti-impact gloves utilize Visco-Elastic Polymer (VEP) padding. VEP has excellent impact absorbing and shock dissipation qualities as well as absorption of higher levels of vibration. VEP is made from polyurethane with additional chemicals that increase its viscosity level. It is effective in redistributing and reducing local pressure on the area padded. VEP will not "compression set", making it extremely durable to stand to rigorous repetitive tasks. IMPACTO offers a large line of VEP padded gloves to suit customized needs.
