

IMPACTO® ANTI-IMPACT GLOVE

Utilizing Visco-Elastic Polymer (VEP) Padding

Protects the palm, fingers and thumb web from Impact and Shock

- › Made of nylon fabric to ensure optimum breathability and comfort
- › Contoured VEP 1/8" padding in the palm, fingers and thumb web area to provide excellent protection from impact and shock
- › 3/4 finger style leaves finger tips open to ensure tactile feedback and mobility
- › Grain leather cover offers abrasion protection
- › Great for protection from hand tools and power tools in applications including construction, assembly, manufacturing, maintenance and warehousing

Model **525-20**

› Variations:

525-00 - nylon liner without leather

505-20 - with padding in the palm only

IMPACTO anti-impact gloves utilize Visco-Elastic Polymer (VEP) padding. VEP has excellent impact absorbing and shock dissipation qualities as well as absorption of higher levels of vibration. VEP is made from polyurethane with additional chemicals that increase its viscosity level. It is effective in redistributing and reducing local pressure on the area padded. VEP will not "compression set", making it extremely durable to stand to rigorous repetitive tasks. IMPACTO offers a large line of VEP padded gloves to suit customized needs.

In Conformance with Norms:

EN 388:2003

Protective gloves against mechanical risks

EN 420:2003+A1:2009

General requirements for gloves
