

IMPACTO® ANTI-IMPACT GLOVE

Utilizing Visco-Elastic Polymer (VEP) Padding

Protects the palm, fingers & thumb from Impact and Shock

- › Made of durable grain leather to protect from abrasion and ensure durability
- › Contoured VEP 1/8" padding in the palm, fingers and thumb protect from impact
- › Full finger style offers optimum protection
- › 100% KEVLAR® stitching for added durability
- › Outside seams ensure comfort
- › Elastic gathered at wrist helps prevent debris from entering the hand
- › Safety suede leather cuff
- › Great for protection from air tools and power tools in applications such as construction and maintenance

Model **615-20**

IMPACTO anti-impact gloves utilize Visco-Elastic Polymer (VEP) padding. VEP has excellent impact absorbing and shock dissipation qualities as well as absorption of higher levels of vibration. VEP is made from polyurethane with additional chemicals that increase its viscosity level. It is effective in redistributing and reducing local pressure on the area padded. VEP will not "compression set", making it extremely durable to stand to rigorous repetitive tasks. IMPACTO offers a large line of VEP padded gloves to suit customized needs.

In Conformance with Norms:

EN 388:2003

Protective gloves against mechanical risks

EN 420:2003+A1:2009

General requirements for gloves
