

IMPACTO® ANTI-IMPACT GLOVE

Utilizing Visco-Elastic Polymer (VEP) Padding Protects the palm and fingers Impact and Shock

Model **650-20**

- › Made of durable grain leather to protect from abrasion and ensure durability
- › Contoured VEP 1/8" padding in the palm and partial fingers (to the first knuckle)
- › Full finger style offers optimum protection
- › Elastic gathered at the wrist to prevent debris from entering the hand; driver style cuff
- › Great for protection from air tools and power tools in applications such as construction, maintenance and driving
- › Variations:
750-20 - with wrist support

IMPACTO anti-impact gloves utilize Visco-Elastic Polymer (VEP) padding. VEP has excellent impact absorbing and shock dissipation qualities as well as absorption of higher levels of vibration. VEP is made from polyurethane with additional chemicals that increase its viscosity level. It is effective in redistributing and reducing local pressure on the area padded. VEP will not "compression set", making it extremely durable to stand to rigorous repetitive tasks. IMPACTO offers a large line of VEP padded gloves to suit customized needs.

In Conformance with Norms:

EN 388:2003

Protective gloves against mechanical risks

EN 420:2003+A1:2009

General requirements for gloves

Sizing: Measure the circumference of the hand at the base of fingers.
