Utilizing Visco-Elastic Polymer (VEP) Padding
Protects the palm from Impact and Shock
Wrist support protects from Repetitive Strain Injuries (RSI)

› **Made of elastic polyester fabric to ensure optimum breathability and comfort**

› **Fingerless style leaves fingers open for tactile feedback and mobility**

› **Suede leather cover on the palm offers abrasion protection**

› **Detachable padded wrist support prevents over flexion and over extension to help prevent RSI**

› **For protection from impact and RSI in applications including office use, assembly, manufacturing and material handling**

› **Other Wrist Supports:**

  700-10 – suede leather padded

  705-20 – grain leather without padding

Model **710-10**

IMPACTO anti-impact gloves utilize Visco-Elastic Polymer (VEP) padding. VEP has excellent impact absorbing and shock dissipation qualities as well as absorption of higher levels of vibration. VEP is made from polyurethane with additional chemicals that increase its viscosity level. It is effective in redistributing and reducing local pressure on the area padded. VEP will not "compression set", making it extremely durable to stand to rigorous repetitive tasks. IMPACTO offers a large line of VEP padded gloves to suit customized needs.

CE

In Conformance with Norms:

EN 388:2003
Protective gloves against mechanical risks

EN 420:2003+A1:2009
General requirements for gloves

4 1 4 4

Sizing: Measure the circumference of the hand at the base of fingers.

Washing: Hand wash in cold water and soft detergent. Do not bleach, do not dry by machine, do not dry clean.

Glove	Hand	Circumference
Small	7	7" - 8" / 18-20 cm
Medium	8	8" - 9" / 20-23 cm
Large	9	9" - 10" / 23-28 cm
X-Large	10	10" - 11" / 28-33 cm
