

# IMPACTO® ANTI-IMPACT GLOVE

Utilizing Visco-Elastic Polymer (VEP) Padding  
 Protects the palm, fingers and thumb web from Impact and Shock  
 Wrist support protects from Repetitive Strain Injuries (RSI)

- › Made of 4-way stretch polycotton to ensure optimum breathability and comfort
- › Contoured VEP 1/8" padding in the palm, mid-way up the fingers and thumb web area to protect from impact and shock
- › Full finger offers maximum protection
- › Designed to be worn under work glove
- › Grain leather wrist support prevents over flexion and over extension to help prevent RSI
- › Great for protection from hand tools and power tools in applications including construction, assembly, manufacturing and maintenance
- › Variations:  
 601-00 - without wrist support  
 712-23 - with full finger padding

Model 712-02

IMPACTO anti-impact gloves utilize Visco-Elastic Polymer (VEP) padding. VEP has excellent impact absorbing and shock dissipation qualities as well as absorption of higher levels of vibration. VEP is made from polyurethane with additional chemicals that increase its viscosity level. It is effective in redistributing and reducing local pressure on the area padded. VEP will not "compression set", making it extremely durable to stand to rigorous repetitive tasks. IMPACTO offers a large line of VEP padded gloves to suit customized needs.
